Customization

The Brother Entrepreneur embroidery machines have been launched with the first time embroiderer in mind. With many easy to use features, they are perfect for starting up your embroidery business.

So what can I embroider?

Polo shirts, t-shirts, leisure wear, jackets, souvenirs, scarves, shirts, blouses, work wear, sweatshirts, baseball caps and much more!

Remember, you don't need industrial premises for the Brother machines. At a voltage of 240V, it runs off a standard household supply, and with their compact size and weight, they can go pretty much anywhere with a sturdy surface.

This pack is complete with all the information you will need about the machines, the accessories, pricing and different payment options that we offer. We offer flexible finance and leasing options on our machinery, so there is nothing to stop you getting the machine you require, and the machine that you actually want.
